DAY 2 – Thursday, May 9th

8:30 AM	<p>THE EVOLUTION OF Wi-Fi</p> <p>Presenter: ANDREW CUELLAR, Product Marketing Manager</p> <p><i>The race to 10G and beyond has arrived, and providers are focusing on fiber build outs to offer even more access to bandwidth. While this is great news for subscribers, we tend to overlook the most important aspect of the user experience, Wi-Fi. Wireless technologies continue to evolve to keep pace with the increased demand in speed and improve the overall experience. The latest Wi-Fi 7 technology is now here to meet these new expectations in performance.</i></p>	Zyxel Communications
9:15 AM	BREAK
