# PART 1 MESSAGE TOLL TELEPHONE SERVICE

# A. <u>APPLICATION</u>

- 1. Part 1 of this tariff applies to message toll telephone service originated from a rate center of a participating local exchange company (hereinafter referred to as the "Telephone Company") which terminates within a Local Access and Transport Area (LATA) and within the State of Pennsylvania. The points between which service is furnished on a local basis are indicated by the Local General Tariffs governing the rates for exchange service.
- 2. In addition to the charges set forth in this Tariff, a surcharge applies to intrastate toll charges. Individual company surcharges are identified in local exchange company tariffs, as filed with the Pennsylvania Public Utility Commission.

# B. **GENERAL REGULATIONS**

1. Definition

Message toll telephone service is that of furnishing facilities for telephone communication between telephones in different local service areas of the same LATA in accordance with the regulations and system of charges specified in Part 1 of this tariff. The toll service charges specified in Part 1 of this tariff are in payment for all service furnished between the calling and called telephones.

2. Undertaking The Telephone Company

The Telephone Company does not transmit messages, but offers, subject to the terms and conditions specified in Part 1 of this tariff, the use of its facilities where available for communication between customers.

3. Priority of Service

In case a shortage of facilities exists at any time either for temporary or protracted periods, the furnishing of message toll telephone service shall take precedence over the use of trunk lines between central offices for the furnishing of the following types of channels: extension, branch exchange station, tie, private, teletypewriter, program transmission, short period talking, secretarial, toll terminal and foreign exchange.

4. Liability of Telephone Company

The liability of the Telephone Company for damages arising out of mistakes, omissions, interruptions, delays, or errors or defects in transmission, or failure or defects in the Telephone Company's equipment occurring in the course of furnishing service or other facilities and not caused by the negligence of the

First Revised Sheet 6 Cancels Original Sheet 6

# PART 1 MESSAGE TOLL TELEPHONE SERVICE

# B. <u>GENERAL REGULATIONS</u>

4. Liability of Telephone Company (cont'd)

customer, or of the Telephone Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, or error or defect in transmission, or failure or defect in the Telephone Company's equipment occurs. Adjustments within the limits provided herein may be made by direct payment to the customer or by credit to the customer's account.

- 5. Use
  - a. Service is provided for use by the customer and may be used by others, when so authorized by the customer, provided that all such usage shall be subject to the provisions of Part 1 of this tariff.
  - b. Use of Service for Unlawful Purposes

Service is furnished subject to the condition that it will not be used for an unlawful purpose. Service will not be furnished if any law enforcement agency, acting within its jurisdiction, advises that such service is being used or will be used in violation of the law, or if the Telephone Company receives other evidence that such service is being or will be so used.

c. Use of Service With Customer-Provided Equipment

Customer-provided terminal equipment and communications systems may be connected to exchange facilities of the Telephone Company subject to the regulations and rates applicable to the connection of such facilities to the local and long distance Telecommunications System of the Telephone Company's as provided by the participating companies local exchange tariffs.

- 6. Service Used For Data Transmission
  - a. Message toll telephone service is available for use on a two-point service basis with data transmitting and/or receiving equipment for the transmission and reception of data signals.
  - b. The regulations and rates for each call made for the purpose of transmitting data signals are those applicable for message toll telephone station-to-station and person-to-person services according to the connection established.

Second Revised Sheet 7 Cancels First Revised Sheet 7

# PART 1 MESSAGE TOLL TELEPHONE SERVICE

#### C. TWO-POINT SERVICE

#### 1. Definitions

#### **Billing to Third Party**

The term "Bill to Third Party" denotes a billing arrangement by which a call may be charged to an authorized station as determined by the Telephone Company other than the station originating the call or the station where the call is terminated.

#### Calling Card

The term "Calling Card" denotes a billing arrangement by which a call may be charged to an authorized Telephone Company Calling Card Number.

#### Collect Call

The term "Collect Call" denotes a billing arrangement by which the charge for a call may be reversed provided the charge is accepted at the called station. A collect call may be billed to a Calling Card or third party number. In the case of a collect call to a pay telephone where the telephone company provides coin supervision or call screening, the charges must be billed to a Calling Card or third party number, or the call may be reoriginated from the called station.

#### Operator Person-to-Person

The term "Operator Person-to-Person" denotes that service where the person originating the call specifies to the Telephone Company operator a particular person to be reached, a particular mobile station to be reached through a Miscellaneous Common Carrier attendant, or a particular station, department, or office to be reached through a Centrex or PBX attendant.

When, after the station, Miscellaneous Common Carrier mobile radio system, Centrex, or PBX called has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other person or mobile station to be reached through a Miscellaneous Common Carrier attendant, or to any other station, department or office to be reached through a Centrex or PBX attendant, the classification of the call remains person-to-person.

When the person originating the call wishes arrangements made in advance with a particular party or station for the establishment of a connection at a specified time (appointment call), the call is classified as person-to-person.

Issued: February 14, 1997

Effective: April 15, 1997

(C)

(C)

1st Revised Sheet 8 Cancels Original Sheet 8

# PART 1 MESSAGE TOLL TELEPHONE SERVICE

# C. TWO-POINT SERVICE (cont'd)

# 1. DEFINITIONS (cont'd)

Operator Person-to-Person (cont'd)

The Telephone Company does not undertake in connection with person-to-person service to bring to a station a called person who cannot be reached at a station connected to the participating telephone company. However, at the request of the calling party, the Telephone Company, when possible, will arrange on behalf of the calling party, for messenger service: that is, a messenger or other means to notify the called party of the call. The Telephone Company shall be reimbursed by the calling party for the amount expended for such messenger service, such charges being subject to prior authorization by the calling party to the extent that they can be determined in advance. Such charges for messenger service are in addition to the tariff charges for the message.

# Station

The term "Station" denotes the network control signaling unit and any other equipment provided in accordance with Telephone Exchange Service Tariffs of the Company's concurring and connecting carriers, or Tariffs of the Company's other participating carriers, or furnished by foreign telephone administrations, at a customer's premises or at pay telephone locations which enables a customer to establish communications connections and to effect communications through such connections.

# Station-to-Station

The term "Station-to-Station" denotes that service where the person originating the call dials the telephone number desired or gives to the Telephone Company operator the telephone number of the desired station, Miscellaneous Common Carrier connecting circuit, Centrex, PBX, Centrex station, or PBX station which is reached directly rather than through a Centrex or PBX attendant, or gives only the name and address under which the number of the desired station, Miscellaneous Common Carrier connecting circuit, Centrex or PBX is listed and does not specify a particular person to be reached, nor a particular mobile station to be reached through a Miscellaneous Common Carrier attendant, nor a particular station, department or office to be reached through a Centrex or PBX attendant.

1st Revised Sheet 9 Canceling Original Sheet 9

# PART 1 MESSAGE TOLL TELEPHONE SERVICE

# C. TWO-POINT SERVICE (cont'd)

1. DEFINITIONS (cont'd)

Station-to-Station (cont'd)

The classes of station-to-station service offered are as follows:

"Dial Station-to-Station" is that station-to-station service where the person originating the call from other than a pay telephone where the telephone company provides coin supervision dials the telephone number desired and the call is completed without the assistance of a Telephone Company operator and the call is not billed to a number other than the originating number, except: when an operator records the originating telephone number where no automatic recording equipment is available; when an operator reaches the called telephone number where facilities are not available for dial completion; when an operator places a call for a calling party who identifies himself as being handicapped and unable to dial the call because of his handicap; and when an operator reestablishing a call which has been interrupted after the called number has been reached.

"Coin Paid Customer Dialed" is that station-to-station service where the personoriginates the call from a pay telephone where the telephone company provides a(C)coin supervision, dials "1" plus the called number, and pays for the call by(C)depositing the coins in the pay telephone.(C)

"Calling Card Customer Dialed" is that station-to-station service where the person originating the call dials "0" plus the called number and charges the call to an authorized Telephone Company Calling Card Number.

"Operator Station" is that station-to-station service where the person originating the call dials "0" plus the called number and charges the call to a third number, special billing number or makes the call collect. "Operator Station" is also that station-to-station service where the person originating the call dials "0" and requests the operator to dial the desired number and charge the call to a Calling Card, third number, special billing number, make it a collect call or pay for the call. All Station Time and Charge Requests are also included in this category.

Original Sheet 10

# PART 1 MESSAGE TOLL TELEPHONE SERVICE

# C. TWO-POINT SERVICE (Cont'd)

# 2. PROCEDURE FOR DETERMINING A RATE

- a. In order to determine the rate for a given class of service between two points in the State of Pennsylvania, the steps to be followed are:
  - (1) Refer to Part 1 of this tariff and note the V and H coordinates for the rate centers involved, together with any other rate information in the V-H coordinate columns. In accordance with the instructions therein, determine the rate airline distance between the rate centers involved.
  - (2) For Harrisburg, Philadelphia, and Pittsburgh, to points for which direct distance is 40 miles or less from the respective zones, toll rates are based on the airline distance between the points. To points for which the direct distances to the respective zones are more than 40 miles, toll rates are based on the distances to Zone 1 with a minimum of 41 miles.
  - (3) Refer to the appropriate rate table in 9. Following. Opposite the mileage step which includes the mileage determined as in (1) above will be found the rates for all classes of service between the rate centers involved.

# 3. METHOD OF APPLYING RATES

Message toll telephone service rates between points within a LATA in Pennsylvania are based on the airline distance between rate centers. In general, each point is designated as a rate center except that certain small towns or communities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest and in the large metropolitan areas there are several rate centers. Each exchange area has one rate center except the Harrisburg, Philadelphia, Pittsburgh, Philadelphia Suburban and Pittsburgh Suburban exchange areas which are divided into zones each of which has a separate rate center.

For the purpose of determining rate distances, a vertical (V) and horizontal (H) coordinate system is used. The V-H system consists of a series of coordinates which represent a theoretical grid of vertical and horizontal lines covering the State of Pennsylvania. The spacing between these lines is about 1, 670 feet and an intersection of any two grid lines represents the center of an area approximately one-tenth of a square mile designated by the two coordinates.

Original Sheet 11

# PART 1 MESSAGE TOLL TELEPHONE SERVICE

# C. TWO-POINT SERVICE (cont'd)

# 3. METHOD OF APPLYING RATES (cont'd)

The location of a rate center expressed in latitude and longitude can be converted mathematically to its grid location, i.e., vertical (V) and horizontal (H) coordinates. These coordinates permit calculation of the distance between any two such rate centers. The rate applicable for the distance so obtained is as provide in 9. following.

The V and the H coordinates for each rate center, and the rate center for each central office, in the State of Pennsylvania are listed in the Rate Guide in Part 3. of this tariff.

When service is available to a point not listed in this toll tariff, the rate center is the rate center for the central office through which exchange telephone service at the point is furnished.

# 4. CLASSES OF SERVICE

Service is offered on a Dial Station-to-Station, Coin Paid Customer Dialed, Calling Card Customer Dialed, Operator Station, or Operator Person-to-Person basis.

Charges for messages within these classes of service are based upon the day of the week and the time of day that each initial minute or additional minute begins.

	MON	TUES	WED	THUR	FRI	SAT	SUN

#### Original Sheet 12

#### PART 1 MESSAGE TOLL TELEPHONE SERVICE

#### C. TWO-POINT SERVICE (cont'd)

#### 5. INITIAL MINUTE, ADDITIONAL MINUTES AND DISCOUNTS

Rates are quoted in terms of initial minute and additional minutes. a. All Calls

Initial minute rates given in the rate table in 9.a. following are for connections of one minute or any fraction thereof.

- b. All additional minute rates given in the rate table in 9.a. following are for each additional minute or any fraction thereof that the connection continues beyond the initial minute.
- c. Discounts for the Evening and Night & Weekend reduced rate periods given in the table in 9.b. following are expressed as a percent reduction of the charge calculated at the rates published in table 9.a. and are applied to message connection established during the periods indicated in table 9.b.
  - (1) For all messages, the discount is applied to the sum of the initial minute and additional minutes charges determined from the rate table in 9.a. following.
  - (2) There is no discount applied to the Operator Service Charge in 9.a. following.
  - (3) When the discount results in a fractional charge, the amount will be rounded down to the lower cent.

#### 6. TIMING OF MESSAGES

- a. The time when connection is established, (determined in accordance with the timestandard or daylight saving - observed at the location of the rate center of the calling station) determines whether Day, Evening, or Night & Weekend rates apply. This rule applies whether the call is sent as paid or collect.
  - (1) In cases where a message begins in one rate period and ends in another, the rate in effect at the time the connection is established applies to the initial minute. The rate for each additional minute is the rate in effect at the beginning of each additional minute of usage.
  - (2) On Station-to-Station messages, chargeable time begins when connection is established between the calling station and the called station. Miscellaneous Common Carrier mobile radio system or PBX.

Original Sheet 13

# PART 1 MESSAGE TOLL TELEPHONE SERVICE

# C. TWO-POINT SERVICE (Cont'd)

# 6. TIMING OF MESSAGES (Cont'd)

- (3) On Person-to-Person messages, chargeable time begins when connection is established between the calling person and the particular person or station specified or an agreed alternate.
- b. Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Telephone Company operator.
- c. Chargeable time does not include time lost because of faults or defects in the service.
- d. When exchange telephone service used for Message Toll Telephone Service is connected through a Service Terminating Arrangement or Connecting Arrangement at a customer's premises to communications system, chargeable time for all calls begins when a call from the telecommunications network terminates in or passes through the first terminal equipment on that communications system. It is the customer's responsibility to furnish answer supervision so that chargeable time may begin.

# 7. REVERSAL OF CHARGES (COLLECT CALLS)

The regularly established Operator Station-to-Station or Operator Person-to-Person rates apply.

# 8. RATES APPLICABLE ON CERTAIN HOLIDAYS

On Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day, the rate applicable is the Evening rate, unless a lower rate would normally apply.

#### PART 1 MESSAGE TOLL TELEPHONE SERVICE

#### C. <u>TWO-POINT SERVICE</u> (cont'd)

#### 10. RATES APPLICABLE ON MESSAGES PLACED BY CERTIFIED SPEECH AND/OR HEARING DISABLED

On messages placed by certified speech and/or hearing disabled customers who are incapable of verbal communication and use a telecommunications device (e.g. teletypewriter or similar keyboard communications terminal device) for communicating over the Message Toll Network, the rates in 11. following will apply.

Certification of the speech and/or hearing disabled requires the completion of an application form certified by an agency designated by the Telephone Company, or physician, otolarynologist or licensed speech-language pathologist or audiologist.

The rates in 11. following also apply on all intraLATA toll messages placed through the Pennsylvania Telecommunications Relay Service. No certification is required for such rate application.

#### 11. TABLE OF RATES APPLICABLE TO MESSAGES PLACED BY CERTIFIED SPEECH AND/OR HEARING DISABLED RESIDENCE CUSTOMERS

# (Reserved For Future Use)

#### Original Sheet 16

#### PART 1 MESSAGE TOLL TELEPHONE SERVICE

#### D. CONFERENCE SERVICE

- 1. TOLL CONFERENCE SERVICE
  - a. Definition

Message toll conference service is that of furnishing connections between three or more main lines on one connection at the same time.

- b. Conditions Under Which Service is Furnished
  - (1) Service is furnished where and to the extent that facilities permit.
  - (2) All lines on a conference connection may be so interconnected that each may communicate with all the others, or arrangements may be made whereby one line will be the transmitting line and all others receiving lines.
  - (3) One class of service only is offered whether the call is to specified persons or specified telephones.
  - (4) The Telephone Company, upon request, will attempt to arrange for the establishment of a conference connection at a specified time.
- c. Reversal of Charges (Collect Calls) Charges for conference calls may, upon request, be reversed provided:
  - (1) The total charge will be billed against one called line.
  - (2) The charge is accepted at the designated line.
- d. Timing of Messages
  - (1) Chargeable time begins when connection is established between all lines on the conference.
  - (2) Chargeable time ends on a given two-point connection of a conference call when the connection is terminated by the originating line of the called line.
  - (3) Chargeable time does not include time lost because of faults or defects in the service.
- e. Rates and Charges The rates for a conference call are the sum of:
  - (1) the two-point initial minute and additional minute charges determined in accordance with c. preceding for a call between the originating line and each called line on the conference, and
  - (2) a service charge of \$2.50 for each called line.
- 2. LOCAL CONFERENCE SERVICE
  - a. Definition

At points where the special equipment required for the conference connections is in service, the Telephone Company will undertake to establish local conference connections between more than two lines, all of which are within the same local service area on one connection at the same time, all such lines being so interconnected that each may communicate with all the others. The total number of lines connected will be determined by equipment limitations.

These connections will be established on either a person-to-person or station-to-station basis. The Telephone Company, at the request of a customer, will be undertake to arrange for the establishment of a conference connection at a specified time.

Reversal of Charges (Collect Calls

Charges for conference calls may, upon request, be reversed, provided:

- (1) The total charge will be billed against one line.
- (2) The charge is accepted at the designated line.

Original Sheet 17

#### PART 1 MESSAGE TOLL TELEPHONE SERVICE

#### D. CONFERENCE SERVICE (Cont'd)

#### 2. LOCAL CONFERENCE SERVICE (Cont'd)

b. Rates and Charges

Where all lines in a conference connection are within the same local service area, the following rates apply:

(1)	Usage Charge: For each line in excess of the originating line: Each one minute or fraction thereof	\$.05
(2)	Service Charge: For each called line	\$2.50

#### E. MOBILE TELEPHONE SERVICE

#### 1. APPLICATION OF REGULATIONS AND RATES

The regulations and rates set forth below apply for intrastate message toll Mobile Telephone Service furnished through the mobile telephone service base stations listed in 3. following.

#### 2. GENERAL REGULATIONS

a. Definition

Message Toll Mobile Telephone Service is a communication service through a mobile telephone service base station between a mobile unit and a wire telephone located outside the mobile service area associated with such mobile telephone service base station or between two mobile units served through mobile telephone service base stations having different rate centers.

Message Toll Mobile Telephone Service also includes service through a mobile telephone service base station between a wire telephone or a mobile unit, and another station which is authorized by the Federal Communications Commission to communicate with the mobile telephone service base station, or between two such other stations.

In the application of regulations and rates, stations other than mobile units which are authorized by the Federal Communications Commission to communicate with a mobile telephone service base station are considered mobile units.

b. Availability of Service

Mobile Telephone Service is available to mobile units equipped for this service when within range of a mobile telephone service base station through which such service is furnished, and subject to transmission, atmospheric and like limitations.

c. Class of Service

Calls may be filed either to a specified person or to a specified telephone.

d. Registry of Mobile Unit

The party on the mobile unit placing or receiving a toll call shall inform the mobile service operator, upon request, as to the place of registry of the mobile unit placing the call.

3. RATES

The rates applicable for calls from or to mobile units served by the base stations listed below, are station-to-station Day, evening, or Night and Weekend rates or person-to-person rates as set forth in c. preceding.

### PART 2

### OPTIONAL DIAL STATION-TO-STATION TOLL CALLING PLAN SERVICE

H. MISCELLANEOUS TOLL OPTIONAL CALLING PLANS (OCP)

# South Canaan Telephone Company

1. <u>Description of Service</u>

This service provides for one-way station-to-station calling by residence and business customers at discounted toll rates between specified exchanges in different local service areas at rates listed under Paragraph 3, following.

2. <u>Scope</u>

This Optional Calling Plan is offered to residence and business customers for dial station-to-station calls from the exchange listed below, to the exchanges listed:

From Exchange South Canaan Waymart <u>To Exchange</u> Scranton Forest City

- 3. <u>Rates and Charges</u>
  - a. Customers selecting this Optional Calling Plan will be charged a monthly recurring OCP charge of \$1.50 for each OCP route selected.
  - b. All dial station-to-station calls to the designated calling areas will be subject to dial station-to-station rates of \$ .07 per minute. (C)

### PART 2 OPTIONAL DIAL STATION-TO-STATION TOLL CALLING PLAN SERVICE

H. MISCELLANEOUS TOLL OPTIONAL CALLING PLAN (OCP) – cont'd

### Laurel Highland Telephone Company

### 1. **Description of Service**

Local service exchange users may elect to purchase, at a fixed monthly rate, a block of time - consisting of 100 minutes of usage - at a discounted rate, to certain specific (C) IntraLATA exchange locations. The per call charge for these calls is normally computed on a Rate Step, Day-Evening-Night/Weekend, Initial Minute and Overtime Usage basis, according to rates in Part 1, Sheet 14CC of this tariff. The subscribers will now be able to save money on a series of individual toll rate charges made to commonly called exchanges outside the company's free calling rate area.

Charges are calculated on a monthly usage basis - up to 100 minutes of use at a flat (C) rate - with each call rated to the nearest full minute for fractional usage thereof. Usage which exceeds 100 minutes is charged on a discounted toll rate basis, with (C) timing calculated to the nearest full minute for fractional usage as in the basic rate calculation. Usage on a specific route is defined as originating in either of the Laurel Highland Telephone Company exchange areas. It specifically excludes incoming service on those routes.

### PART 2

### OPTIONAL DIAL STATION-TO-STATION TOLL CALLING PLAN SERVICE

### H. MISCELLANEOUS TOLL OPTIONAL CALLING PLAN (OCP) - cont'd

# Yukon Waltz Telephone Company

1. <u>Description of Service</u>

Local service exchange users may elect to purchase, at a discounted fixed monthly rate, a block of time to a qualified specific IntraLATA exchange or exchanges. Calls to each qualified exchange may be placed between 5:00 PM and 8:00 AM Monday through Friday, and 5:00 PM Friday to 8:00 AM Monday. The per call charge for these calls is normally computed on a Rate Step Day-Evening-Night-Weekend, Initial Minute and Overtime Usage basis, according to rates in Part 1, Sheet 14 of this tariff.

The block of time will be 60 minutes, usable during the monthly billing period as described above. Charges for this block of time service will be calculated on a monthly usage basis with the base 60 minutes to be paid in advance. Each call will be timed to the nearest full minute with fractional usage to the nearest full minute, until the 60 minutes are used. Usage which exceeds 60 minutes will be charged in one minute increments at 1/60 of the 60 minute rate, with fractional usage calculated to the nearest full minute. Usage on a specific route is defined as originating in the Yukon Waltz Telephone Company exchange serving areas. It specifically excludes incoming service on these routes.

For an additional fee, local service exchange users may also elect to purchase a discount on weekday toll calls to the same commonly called exchange outside the company's local calling area. This discount would apply to all calls charged at the currently filed day rate each weekday between 8:00 AM and 5:00 PM. The local service exchange user must purchase the 60 minute block of time to the specific distant exchange in order to be eligible for the day discount.

### **OPTIONAL DIAL STATION-TO-STATION TOLL CALLING PLAN SERVICE**

### The North-Eastern PA Telephone Co.

### H. MISCELLANEOUS TOLL OPTIONAL CALLING PLAN (OCP) (continued)

### 1. DESCRIPTION OF SERVICE

Local service exchange users may elect to purchase, at a discounted fixed monthly rate\*, a (C) block of time to a qualified specific IntraLATA exchange. Calls to each qualified exchange may be made 24 hours a day, seven days a week at rates described below. The per call charge for these calls is normally computed on a Rate Step, Day-Evening-Night-Weekend, Initial Minute and Overtime Usage basis, according to rates in Part 1, Sheet 14S of this tariff.

The block of time will be 30 minutes, usable during the monthly billing period as described above. Charges for this 30 minute block of time service will be calculated on a monthly usage basis. Each call will be timed, with fractional usage to the nearest full minute, until the 30 minutes are used. Usage which exceeds 30 minutes will be charged in one minute increments at the additional minute rate, with fractional usage calculated to the next full minute. Usage on a specific route is defined as originating in The North-Eastern Pennsylvania Telephone Company exchange serving areas. It specifically excludes incoming service on these routes.

\* The fixed monthly rate varies for residence versus business and for the size of the exchange being called. A large exchange is determined to be 1500 plus access lines and small less than 1500. Rates are as follows:

	Res.	Bus.
Large Exchange	\$1.50	\$2.50
Small Exchange	\$1.25	\$2.25

Optional Calling Plan routes are offered on a minimum monthly block of time usage basis as determined by guidelines issued by the Pennsylvania Public Utility Commission. Periodic traffic usage studies conducted by the company will be used to determine which routes are to be added or deleted according to those guidelines.

# **Armstrong Telephone Company - Pennsylvania**

H. MISCELLANEOUS TOLL OPTIONAL CALLING PLAN (OCP)

1. <u>Description of Service</u>

This service provides for one-way station-to-station calling by residence and business customers, at discounted toll rates between specified exchanges in different local service areas at rates listed under Paragraph C, following:

## 2. <u>Regulations</u>

These Optional Toll Calling Plans are offered to residence and business customers for dial station-to-station calls from the Murdocksville exchange to the exchanges listed:

Plan A	Beaver Co.	Aliquippa	375, 378, 857
		Ambridge	251, 266
		Baden	869, 876
		Hookstown	573
		Midland	643
		Smiths Ferry	764
		Rochester	770, 773, 774, 775, 728
Plan B	Allegheny Co 1	Coraopolis	262, 264, 269, 299, 470, 472, 474, 493, 604, 859
		Glenwilliard	457
		Sewickley	741, 749
Plan C	Allegheny Co 2	Bridgeville	220, 221, 257, 914
		Carnegie	276, 278, 279, 429, 490, 494, 747, 787, 788
		Oakdale	693
Plan D	Washington Co.	Avella	587
		Hickory	356
		McDonald	926
		Midway	796
		Paris	729

## PART 2 OPTIONAL DIAL STATION-TO-STATION TOLL CALLING PLAN SERVICE

# Armstrong Telephone Company - Pennsylvania

(Coninued)

#### H. MISCELLANEOUS TOLL OPTIONAL CALLING PLAN (OCP) (cont'd)

3. <u>Rates</u>

1 1411 1 1
------------

Residential	\$9.95/month for 300 Minutes plus \$0.10 per minute afterward
Business	\$14.95/month for 300 Minutes plus \$0.10 per minute afterward

Exchanges in plan: Alquippa, Ambridge, Baden, Hookstown, Midland, Rochester and Smiths Ferry

#### <u>Plan B</u>

Residential	\$9.95/month for 300 Minutes plus \$0.10 per minute afterward
Business	\$14.95/month for 300 Minutes plus \$0.10 per minute afterward

Exchanges in plan: *Coraopolis, Glenwilliard and Sewickley* 

#### <u>Plan C</u>

Residential	\$9.95/month for 300 Minutes plus \$0.10 per minute afterward
Business	\$14.95/month for 300 Minutes plus \$0.10 per minute afterward

Exchanges in plan: Bridgeville, Carnegie and Oakdale

#### <u>Plan D</u>

Residential	\$9.95/month for 300 Minutes plus \$0.10 per minute afterward
Business	\$14.95/month for 300 Minutes plus \$0.10 per minute afterward

Exchanges in plan: Avella, Hickory, McDonald, Midway and Paris

#### **Combination Plans**

Customers can choose any combination of these plans. There is a \$2.00/month discount for each plan chosen after the first one (a residential customer choosing all 4 plans would pay \$9.95/month for the first plan and \$7.95/month for the second, third and fourth plan).

Example: A customer subscribing to Plan A and Plan B would be listed under Plan A + B.

Rate Centers and V-H Coordinates	
V-H Determination	31

Original Sheet 27

# PART 3

# RATE GUIDE

Participating companies include all Local Exchange Carriers who terminate message toll service originated from the participating companies' Rate Center within a Local Access and Transport Area (LATA) within the State of Pennsylvania.

Original Sheet 28

# PART 3 RATE GUIDE

## A. APPLICATION

1. Part 3. Of this Tariff contains a list of rate centers and central offices for the State of Pennsylvania with V-H (vertical and horizontal) coordinates for use in determining mileage for the Message Toll Telephone Service and for channels as provided in the following Tariffs of participating companies.

Local Exchange Tariff of the Participati	ng Companies
Message Toll Telephone Service	
Governing Schedule	Telephone-PA P.U.C. Toll No. 10-Part 1
Optional Dial Station-to-Station	
Toll Calling Plan Service	Telephone-PA P.U.C. Toll No. 10-Part 2

2. The rate centers served by the participating companies are listed in Telephone-PA P.U.C. Toll No. 10-Part3, Sheets 34-43.

# PART 3

# RATE GUIDE

## B. GENERAL

- 1. The rate centers and central offices in this Tariff are arranged alphabetically by rate center in D. following and by central office in E. following.
- 2. The columns headed "V" and "H" contain the vertical and horizontal coordinates for each rate center.
- 3. For the purpose of determining airline mileages vertical and horizontal grid lines have been established across the State of Pennsylvania. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in statute miles. A vertical (V) and horizontal (H) coordinate is computed for each rate center from its latitude and longitude location by use of appropriate mapprojection equations. A pair of V-H coordinates locates a rate center, for determining airline mileages, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two rate centers is the airline mileage computed between their respective coordinate intersections, as explained in C.1 and C.2 following.
- 4. For message toll telephone service and for channels the rate center for a point not listed in this Tariff is the rate center of the central office through which exchange telephone service at the point is furnished.

Original Sheet 30

# PART 3

# RATE GUIDE

## C. DETERMINATION OF AIRLINE MILEAGES

1. Message Toll Telephone Service

To determine the rate distance between any two rate centers proceed as follows:

- a. Obtain the "V" and "H" coordinates for each rate center.
- b. Obtain the difference between the 'V" coordinates of the two rate centers. Obtain the difference between the "H" coordinates.
  - Note: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
- c. Divide each of the differences obtained in b. by three, rounding each quotient to the nearer integer.
- d. Square these two integers and add the two squares.

If the sum of the squares is greater than 1777, divide the integers obtained in c. by three and repeat step d. Repeat this process until the sum of the squares obtained in d. is less than 1778.

e. The number of successive divisions by three in steps c. and d. determines the value of "N". Multiply the final sum of the two squares obtained in step d. by the multiplier specified in the following table for this value of "N" preceding:

<u>N</u>	Multiplier	Minimum <u>Rate Mileage</u>
1	0.9	
2	8.1	41
3	72.9	121

Original Sheet 31

## PART 3 RATE GUIDE

# C. DETERMINATION OF AIRLINE MILEAGES (Cont'd)

- 1. Message Toll Telephone Service (Cont'd)
  - f. Obtain square root of product in e. and, with any resulting fraction, round up to next higher integer. This is the message rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in e. proceding, the minimum rate mileage corresponding to the "N" value is applicable.

Example:

The message rate distance is required between Allentown, Pennsylvania, and Philadelphia, Pennsylvania

		$\underline{\mathrm{V}}$	$\underline{\mathrm{H}}$
(a)	Allentown	5166	1585
	Philadelphia	<u>5251</u>	<u>1458</u>
(b)	difference	85	127

(c<sub>1</sub>) dividing each difference by three and rounding to nearer integer = 28 and 42

$(d_1)$	squaring integers and adding,	28 x 28 =	784
		42 x 42 =	<u>1764</u>
	sum of squared integers		2548

sum of squared integers is greater than 1777, so divide integers in  $(c_1)$  by three and repeat  $(d_1)$ 

(c<sub>2</sub>) dividing integers in (c<sub>1</sub>) by three and rounding = 9 and 14

$(d_2)$	squaring integers and adding,	9 x 9 =	81
		14 x 14 =	<u>196</u>
	sum of squared integers		277

This sum of squared integers is less than 1778 and was obtained after two successive divisions by three; therefore, "N" = 2

Original Sheet 32

## PART 3 RATE GUIDE

## C. DETERMINATION OF AIRLINE MILEAGES (Cont'd)

1. Message Toll Telephone Service (Cont'd)

(e)	Multiply final sum of squared integers	277
	by factor 8.1 (corresponding to " $N$ " = 2)	<u>x 8.1</u>
	=	2243.7

(f) Square root of 2243.7 = 47 and a fraction, which is rounded up to 48 miles (fractions being considered whole miles). The 48 miles is larger than the minimum of 41 rate miles applicable when "N" = 2, so the message rate mileage is 48 miles.

## 2. Channels

To determine the rate distance between any two rate centers proceed as follows:

- a. Obtain the 'V" and "H" coordinates for each rate center.
- b. Obtain the difference between the 'V" coordinates of the two rate centers. Obtain the difference between the 'H" coordinates.
  - Note: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
- c. Square each difference obtained in b. above.
- d. Add the squares of the "V" difference and the "H" difference obtained in c. above.
- e. Divide the sum of the squares obtained in d. above by 10. Round to the next higher whole number if any fraction is obtained.

Original Sheet 33

# PART 3 RATE GUIDE

# C. DETERMINATION OF AIRLINE MILEAGES (Cont'd)

- 2. Channels (Cont'd)
  - f. Obtain the square root of the result obtained in e. above. This is the rate distance in miles. (Fractional miles being considered as full miles).

Example:

The rate distance is required between Philadelphia and Allentown.

Philadelphia Allentown	difference	<u>V</u> 5251 <u>5166</u> 85	<u>H</u> 1458 <u>1585</u> 127
	squared	7225 + 16129	= 23354
	$\frac{23354}{10} = 4$	8.3 = 49 airline	miles

First Revised Sheet 34 Cancels Original Sheet 34

#### PART 3 <u>RATE GUIDE</u>

Original Sheet 73

# PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

# PARTICIPATING CARRIERS

Participating carriers include:

- 1. All local exchange carriers who terminate Outward WATS Service which is originated from a participating company rate center and terminated within a Local Access and Transport Area within the State of Pennsylvania, and
- 2. All local exchange carriers apply to 800 Service which is terminated at a participating company ate center and originated from within the same Local Access and Transport Area within the State of Pennsylvania.

Original Sheet 74

# PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

# EXPLANATION OF SYMBOLS

EXPLANATION OF ABBREVIATIONS

WATS – Wide Area Telecommunications Service

Original Sheet 75

# PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

# A. APPLICATION OF TARIFF

Part 4 of this tariff applies to Outward Wide Area Telecommunications Service and 800 Service (Inward WATS) within a Local Access and Transport Area (LATA) within the state of Pennsylvania furnished by a participating company, or furnished jointly with other participating carriers. Outward WATS Service and 800 Service between LATAS may be provided in conjunction with the participating company's Outward WATS Service and 800 Service, by interexchange carriers.

The furnishing of Outward WATS Service and 800 Service between LATAs is subject to the terms and conditions of the interexchange carrier's tariff and not this tariff.

# B. OUTWARD WATS

- 1. GENERAL REGULATIONS
  - a. Definitions
    - (1) Outward WATS

Outward WATS is the furnishing of facilities for dial type telecommunications from an Outward WATS access line to telephones located with a LATA within the State of Pennsylvania in accordance with the regulations and schedules for charges specified in this Tariff.

- (2) Dial type telecommunications as specified in (1) above is a call dialed by the customer from his Outward WATS access line except that if facilities are not available for dial completion, the call may be placed with an operator. The call may also be placed with an operator in the same manner if the calling party for any reason cannot reach a dial station.
- (3) An Outward WATS access line is a facility arrangement provided for the purpose of originating Outward WATS calls. This service will be provided in conjunction with a compatible Outward WATS type service offering provided by an interexchange carrier. Either arrangement is subject to the provisions of B1.i. following.

Calls between LATAs originated from an Outward WATS Access Line are subject to the terms and conditions of the appropriate interexchange carrier tariff.

Original Sheet 76

# PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

# B. OUTWARD WATS (Cont'd)

- 1. GENERAL REGULATIONS (Cont'd)
  - a. Definitions (Cont'd)
    - (4) Service Group

The term "Service Group" as used in connection with Outward WATS denotes one or more WATS access lines terminated in the same multiline terminating system at the same premises. Where Outward WATS lines terminate in single line equipment they will be considered as a separate service group or each line.

b. Availability of Service

The furnishing of service under this Tariff will require certain physical arrangements of the facilities of the Telephone Company and is therefore subject to the availability of such facilities.

Original Sheet 77

#### PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

#### B. OUTWARD WATS (Cont'd)

- 1. GENERAL REGULATIONS (Cont'd)
  - b. Availability of Service (Cont'd)

When connections are made to customer or Other Common Carrier-provided communications systems, multiline terminating systems, or terminal equipment at a premises where the customer does not originate or terminate communications, the Telephone Company may require that Outward WATS be furnished from a Telephone Company WATS Central Office(s) different than the Central Office(s) designated by the Telephone Company to serve that premises.

Under such circumstances, monthly and non-recurring charges for access line extension charges apply between the WATS Central Office that would serve the customer's premises and the WATS Central Office from which service is actually offered.

- c. Limitation of Service
  - (1) Outward WATS does not include person-to-person, collect, conference or other calls requiring operator handling except as provided in B.1.a (2) preceding.
  - (2) Outward WATS is not represented as adapted for connection to other services of the Telephone Company or to customer-provided facilities. WATS contemplates the provision of satisfactory transmission only between the calling access line and the called access line. The access line will be terminated only at the customer's premises located in the State of Pennsylvania.
- d. Use of the Service by the Customer
  - (1) Outward WATS is provided for the use by the customer and may be used by others, when so authorized by the customer, providing that all such usage shall be subject to the provisions of this Tariff.
  - (2) Orders, including those which involve the start, rearrangement, release or discontinuance of service, will be accepted by the Telephone Company only from the customer.
  - (3) The design, maintenance and operation of WATS envisions that communications will originate at an Outward WATS network interface for the purpose of communicating with stations within the customer's LATA within the State of Pennsylvania. Connections of communications systems provided by the customer or other Common Carrier to Outward WATS may be made. However, the Telephone Company will not be responsible for the through transmission of signals or for the quality of transmission on such connections.

Original Sheet 78

#### PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

#### B. OUTWARD WATS (Cont'd)

- 1. GENERAL REGULATIONS (Cont'd)
  - d. Use of the Service by the Customer (Cont'd)
    - (3) (Cont'd)

An Outward WATS line be connected to a customer-provided or Other Common Carrier-provided communications system only if the customer has a requirement to communicate over the Outward WATS access line to or from premises of that customer located in the State of Pennsylvania.

e. Extensions of Access Lines

This Telephone Company will provide extensions of access lines only within a LATA within the State of Pennsylvania. The number and location of such extensions may be limited by transmission factors.

- f. Connection with Customer-Provided Data Transmitting Equipment
  - (1) Customer-provided data transmitting equipment may be connected to Outward WATS access lines subject to the regulations and rates applicable to the connection of such facilities to the local and long distance Telecommunications Systems of the Telephone Company as provided by the participating companies Local Exchange Tariffs.
- g. Connections with Customer-Provided Terminal Equipment and Communications Systems

Customer-provided terminal equipment and communications systems may be connected to Outward WATS access lines subject to the regulations and rates applicable to the connection of such facilities to the local and long distance Telecommunications Systems of the Telephone Company as provided by the participating companies Local Exchange Tariffs.

h. Cancellation of Application of Service

Where installation of facilities has been started prior to the cancellation, the Product/Service charge in this Tariff under B.2.h.(1) will apply.

i. Minimum Contract Period

The minimum contract period for service is one month.

#### Original Sheet 79

#### PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

#### B. OUTWARD WATS (Cont'd)

#### 1. GENERAL REGULATIONS (Cont'd)

j. Allowance for Interruptions

Allowance for interruptions apply to each Outward WATS access line as follows:

- (1) When the Outward WATS access line is interrupted for a period of less than 2 hours no credit applies.
- (2) When the Outward WATS access line is interrupted for a period of 2 hours to 24 hours a credit of \$14.00 applies.
- (3) When the Outward WATS access line is interrupted for a period of more than 24 hours a credit of \$14.00 applies for each 24 hour period of any fraction thereof.
- (4) The credit in (2) and (3) above includes all credit to be applied for an interruption.
- (5) None of the above credit allowances will be made for:
  - Non-completion of calls due to busy network conditions.
  - Interruption of service due to customer-provided equipment or systems.
  - Interruption of service due to the negligence of customer.
  - Interruption of service during any period in which the Telephone Company is not afforded access to the premises at which the Outward WATS access line is terminated.
  - Interruption of service during any period when the customer has released the Outward WATS access line to the Telephone Company for maintenance purposes, or implementation of a customer order for a change ins service arrangement.
- (6) No other adjustment or credit allowance will be applied to a customer's account for interruption of his Outward WATS Access Line other than the above.

Original Sheet 80

## PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

#### B. OUTWARD WATS (Cont'd)

- 1. GENERAL REGULATIONS (Cont'd)
  - k. Network Interface

The Outward WATS access line charge includes a termination in a Network Interface or connection to an Other Common Carrier channel utilizing a WATS central office connecting facility.

#### 2. RATES

a. Service Area

The customer's LATA within Pennsylvania is the service area.

b. Minimum Average Time Requirement

Usage is subject to an average of one minute per completed call for each billing period. This means that if the average duration per call during each billing cycle is less than one minute, billing will be based on an average duration of one minute per call.

- c Method of Determining Usage Charges for Outward WATS Calls Within a LATA
  - (1) Determine the total number of calls for each service group separately.
  - (2) Determine the equivalent hours used by applying the minimum average time requirement of 60 seconds (1 call = 1 minute).
  - (3) Determine the total actual hours used for the service group.
  - (4) Determine the total chargeable hours which is the greater of (2) or (3) above, rounded to the nearest hundredth (two decimal places).
  - (5) Determine the total number of access lines in service during the month. Access lines in service for a fraction of a month are based on the number of days in service divided by 30 days. The result is rounded to the nearest hundredth (two decimal places).
  - (6) Determine the average use per line in the service group by dividing the chargeable hours in (4) above by the number of access lines in (5) above.

PENNSYLVANIA TELEPHONE ASSOCIATION

Second Revised Sheet 81 Cancels First Revised Sheet 81

## PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

#### B. OUTWARD WATS (cont'd)

- 2. RATES (cont'd)
  - c. Method of Determining Usage Charges For Outward WATS Calls Within a LATA (cont'd)
    - (7) Determine the usage charge per line in (6) above by multiplying the hourly rate in the appropriate taper(s) by the number of hours used in each taper and totaling these charges.
    - (8) Determine the total usage charges in the service group by multiplying the usage charge per access line in (7) above by the number of access lines in (5) above.
  - d. Method of Determining Fractional Recurring Charges Other Than Usage (e.g., Access Lines, etc.)

Charges for a fraction of a month are determined by dividing the monthly rate by 30 to obtain a daily rate. The rate is multiplied by the number of days service is provided.

e. Timing of Calls

Chargeable time begins when connection is established between a station associated with the Outward WATS access line and the called station, and ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.

- f. Monthly Line Charge
  - (1) Access Line Charge

The access line charge includes a termination in a network interface of connection to an Other Common Carrier channel utilizing a WATS central office connecting facility.

A monthly charge as shown below applies to each WATS access line.

Monthly Charge Reference-PTA Access Service Tariff PA. PUC No. 11, Section 17

(C)

#### Original Sheet 82

#### PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

#### B. OUTWARD WATS (Cont'd)

- 2. RATES (Cont'd)
  - f. Monthly Line Charge (Cont'd)
    - (2) Monthly Usage Charges

The hourly rates apply to the average use of each access line within a service group rounded to the nearest hundredth of an hour.

Average Hours of Use per Line
Rate per Hour

<u>0-15</u>	15.01-40	40.01-80	80.01-140	140.01-220	<u>Over 220</u>
\$9.12 ⊗	\$8.10 ⊗	\$7.12 ⊗	$6.02 \otimes$	\$4.84 ⊗	\$3.20 ⊗

g. Outward WATS Extension Line Charges

The Outward WATS extension line terminates in a network interface.

Rates and regulations to provide extensions of access lines located on the same premises of the customer can be found in the participating companies Local Exchange Tariffs.

Interexchange channel charges apply as covered in the participating companies Local Exchange Tariffs, for an extension of an access line to another premises of the customer within the same LATA.

h. Schedule of Product/Service Charges

		<u>Product/Service Charges</u> Single Use Line
(1)	Each WATS Access Line provided or moved to another premises	\$82.00
(2)	Service rearrangement charge per line to reterminate or rearrange an existing access line in the Central Office due to a customer requested terminal equipment	
	change	35.00

Rates and Regulations for all other premises related work can be found in the participating companies Local Exchange Tariffs.

i. Premises Work Charges

The customer shall be responsible for the payment of Premises Work Charges as provided in the participating companies Local Exchange Tariffs for visits by a Telephone Company employee to the customer's premises when a service difficulty or trouble report results from the use of customer-provided equipment or communications system.

 $\otimes$  Flexibly Priced.

Original Sheet 83

#### PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

#### C. 800 SERVICE (INWARD WATS)

#### 1. GNERAL REGULATIONS

#### a. Definitions

(1) 800 Service

800 Service is the furnishing of facilities for dial type telecommunication originated to an 800 Service Access Line from regular exchange service telephone lines located within a LATA within the State of Pennsylvania in accordance with the regulations and schedules of charges specified in this Tariff.

- (2) Dial type telecommunication as specified in (1) above is an incoming call dialed to a customer's 800 Service Access Line except that if facilities are not available for dial completion, the call may be placed with an operator. The call may also be placed with an operator in the same manner if the calling party for any reason cannot reach a dial station.
- (3) An 800 Service Access Line is a facility arrangement provided for the purpose of receiving 800 service calls. This service will be provided by an interexchange carrier. Each such line will be arranged at the customer's option for 800 Service, subject to the provisions of C.1.i. following.
- (4) Service Group

The term "Service Group" as used in connection with 800 Service denotes all access lines arranged in central office equipment furnished by the Telephone Company as part of a given hunting arrangement.

b. Availability of Service

The furnishing of service under this Tariff will require certain physical arrangements of facilities of the Telephone Company and is therefore subject to the availability of such facilities.

- c. Limitation of Service
  - (1) 800 Service does not include person-to-person, collect, conference or other calls requiring operator handling except as provided in C.1.a.(2) preceding.
  - (2) 800 Service is not represented as adapted for connection to other services of the Telephone Company or to customer-provided facilities. 800 Service contemplates the provision of satisfactory transmission only between the called access line and the calling access line. The access line will be terminated only at a customer's premises located in the State of Pennsylvania.

#### Original Sheet 84

#### PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

#### C. 800 SERVICE (INWARD WATS) (Cont'd)

#### 1. GNERAL REGULATIONS

- c. Limitation of Service (Cont'd)
  - (3) 800 Service is furnished upon condition that the customer obtain adequate service to permit the use of this service without impairing, interfering with, or causing injurious effects upon 800 Service or any other service rendered by the Telephone Company.
- d. Use of the Service by the Customer
  - (1) 800 Service is provided for the use by the customer and may be used by others, when so authorized by the customer, providing that all such usage shall be subject to the provisions of this Tariff.
  - (2) Orders, including those which involve the start, rearrangement, release or discontinuance of service, will be accepted by the Telephone Company only from the customer.
  - (3) The design, maintenance and operation of 800 Service envisions that communications will terminate at an 800 Service working service point for the purpose of communicating with stations, within a LATA within the State of Pennsylvania. Connections of communications systems provided by the customer or Other Common Carrier to 800 Service may be made. However, the Telephone Company will not be responsible for the through transmission of signals or for the quality of transmission on such connections.
- e. Extensions of Access Lines

This Telephone Company will provide extensions of access lines only within a LATA within the State of Pennsylvania. The number and location of such extensions may be limited by transmission factors.

- f. Connections With Customer-Provided Data Receiving Equipment
  - (1) Customer-provided data receiving equipment may be connected to 800 Service access lines subject to the regulations and rates applicable to the connections of such facilities to the local and long distance Telecommunications Systems of the Telephone Company as provided by the participating companies Local Exchange Tariffs.

Original Sheet 85

#### PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

#### C. 800 SERVICE (INWARD WATS) (Cont'd)

#### 1. GNERAL REGULATIONS

g. Connection With Customer-Provided Terminal Equipment and Communications Systems

Customer-provided terminal equipment and communications systems may be connected to 800 Service access lines subject to the regulations and rates applicable to the connection of such facilities to the local and long distance Telecommunications System of the Telephone Company as provided by the participating companies Local Exchange Tariffs.

h. Cancellation of Application for Service

Where installation of facilities has been started prior to the cancellation, the product/service charge in this Tariff under C.2.h.(1) will apply.

i. Minimum Contract Period

The minimum contract period for service is one month.

j. Allowance for Interruptions

Allowance for interruptions apply to each 800 Service Line as follows:

- (1) When the 800 Service access line is interrupted for a period of less than 2 hours no credit applies.
- (2) When the 800 Service access line is interrupted for a period of 2 hours to 24 hours a credit of \$14.00 applies.
- (3) When the 800 Service access line is interrupted for a period of more than 24 hours a credit of \$14.00 applies for each 24 hours period or any fraction thereof.
- (4) The credit in (2) and (3) above includes all credit to be applied for an interruption.
- (5) None of the above credit allowances will be made for:
  - Non-completion of calls due to busy network conditions.
  - Interruption of service due to customer-provided equipment or systems.
  - Interruption of service due to the negligence of the customer.

#### Original Sheet 86

#### PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

# C. 800 SERVICE (INWARD WATS) (Cont'd)

- j. Allowance for Interruptions (Cont'd)
  - (5) (Cont'd)
    - Interruption of service during any period in which the Telephone Company is not afforded access to the premises at which the 800 Service access line is terminated.
    - Interruption of service during any period when the customer has released the 800 Service access line to the Telephone Company for maintenance purposes, or implementation of a customer order for a change in service arrangement.
- k. Directory Listings

Directory listings are furnished in accordance with the regulations specified in the participating companies Local Exchange Tariffs.

1. Directory Assistance Service

800 Service Directory Assistance service is provided at the option of the customer without charge.

m. Network Interface

The 800 Service access line charge includes a termination in a Network Interface or connection to an Other Common Carrier channel utilizing a WATS central office connecting facility.

- 2. RATES
  - a. Service Area

The customer's LATA within Pennsylvania is the service area.

b. Minimum Average Time Requirement

Usage is subject to an average of one minute per completed call for each billing period. This means that if the average duration per call during each billing cycle is less than one minute, billing will be based on an average duration of one minute per call.

c. Method of Determining Usage Charges for 800 Service Calls Within a LATA

After determining he total hours of use and number of calls within a LATA by applying a statewide statistical factor to a customer's total intrastate hours of use and calls, the following steps apply:

- (1) Determine the total number of calls for each service group separately.
- (2) Determine the equivalent hours used by applying the minimum average time requirement of 60 seconds (1 call = 1 minute).

Original Sheet 87

# PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

## C. 800 SERVICE (INWARD WATS) (Cont'd)

#### 2. RATES (Cont'd)

- c. Method of Determining Usage Charges for 800 Service Calls Within a LATA (Cont'd)
  - (3) Determine the total actual hours used for the service group.
  - (4) Determine the chargeable hours which is the greater of (2) or (3) above, rounded to the nearest hundredth (two decimal places).
  - (5) Determine the total number of access lines in service during the month. Access lines in service for a fraction of a month are based on the number of days in service divided by 30 days. The result is rounded to the nearest hundredth (two decimal places).
  - (6) Determine the average use per line in the service group by dividing the chargeable hours in (4) above by the number of access lines in (5) above.
  - (7) Determine the usage charge per line in (6) above by multiplying the hourly rate in the appropriate taper(s) by the number of hours used in each taper and totaling these charges.
  - (8) Determine the total usage charges in the service group by multiplying the usage charge per access line in (7) above by the number of access lines in (5) above.
- d. Method of Determining Fractional Recurring Charges Other Than Usage (e.g., Access Lines, etc.)

Charges for a fraction of a month are determined by dividing the monthly rate by 30 to obtain a daily rate. That rate is multiplied by the number of days service is provided.

#### PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

# D. INTRALATA 800 SERVICE (for all participating companies except those listed on Sheet 94)

#### 1. GENERAL REGULATIONS

- a. Definitions
  - (1) IntraLATA 800 Service

IntraLATA 800 Service provides the customer with an 800 telephone number and the ability to receive incoming calls over an existing facility associated with a seven-digit telephone number, which is located within a Pennsylvania LATA.

Each IntraLATA telephone number will be arranged to receive intrastate/intraLATA calls, which will be provided by the Telephone Company.

The facilities associated with the seven-digit local telephone number are not obtained under this tariff, but may be obtained from the appropriate telephone company's local exchange tariff. Each IntraLATA 800 number must be associated with a unique terminating local telephone number.

(2) IntraLATA 800 Service Usage

Intrastate/IntraLATA calls terminating to an IntraLATA 800 number are subject to the terms and conditions contained in this tariff.

b. Availability of Service

The furnishing of service under this tariff is subject to the availability of suitable service components.

- c. Limitations of Service
  - (1) Calls to IntraLATA 800 telephone numbers are dialed and completed without the assistance of an operator and do not include:
    - Person-to-Person Calls
    - Collect Calls
    - Conference Calls
    - Any other calls under classification of operator-handled calls

(C) Indicates Change

(C) (C)

Original Sheet 91

# PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

# D. INTRALATA 800 SERVICE (Cont'd)

- 1. GENERAL REGULATIONS (Cont'd)
  - c. Limitations of Service (Cont'd)
    - (2) With IntraLATA 800 Service, the Telephone Company is responsible for the provision of satisfactory transmission between the calling access line and the terminating telephone number associated with the IntraLATA 800 Service telephone number only when both are in the same LATA within Pennsylvania.
    - (3) IntraLATA 800 Service is furnished upon the condition that the customer obtain adequate telephone service to permit use of this service without impairing, interfering with, or causing injurious effects upon this service or any other service rendered by the Telephone Company.
    - (4) IntraLATA 800 Service usage cannot terminate into a telephone number associated with Feature Group A or Feature Group B.
  - d. Use of the Service by the Customer
    - (1) IntraLATA 800 Service is provided for use by the customer and may be used by others, when so authorized by the customer, providing that all such usage shall be subject to the provisions of this tariff.
    - (2) Orders, including those which involve the start, rearrangement, release or discontinuance of service, will be accepted by the Telephone Company only from the customer or by others authorized by the customer.
  - e. Minimum Contract Period

The minimum contract period for service is one month.

f. Directory Listings

Directory Listings for IntraLATA 800 Service telephone numbers are furnished in accordance with the regulations specified in Local Telephone Company tariffs.

Original Sheet 92

# PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

# D. INTRALATA 800 SERVICE (Cont'd)

- 2. RATES
  - a. Service Area

The customer's LATA within Pennsylvania is the service area.

b. Minimum Average Time Requirement

Minimum usage charges are based on an average of 30-seconds per completed call for each billing period. This means that if the average duration per call during any billing cycle is less than 30-seconds, billing will be based on an average duration of 30-seconds per call.

- c. Method of Determining Usage Charges for IntraLATA 800 Service Calls Within a LATA
  - (1) Determine the total number of calls for each IntraLATA 800 telephone number separately.
  - (2) Determine minimum chargeable hours by multiplying the number of calls by the minimum average time requirement of 30 seconds (1 call = 30 seconds).
  - (3) Determine the total actual hours used.
  - (4) Determine the number of chargeable hours, which is the greater of (2) or (3) above, rounded to the nearest hundredth (two decimal places).
  - (5) Determine usage charges by multiplying the hourly rate in the appropriate taper(s) by the number of chargeable hours used in each taper and totaling these charges.
- d. Method of Determining Fractional Charges Other Than Usage

Charges for a fraction of a month are determined by dividing the monthly rate by 30 to obtain a daily rate. That rate is multiplied by the number of days service is provided.

Original Sheet 93

# PART 4 WIDE AREA TELECOMMUNICATIONS SERVICE

# D. INTRALATA 800 SERVICE (Cont'd)

- 2. RATES (Cont'd)
  - e. Timing of Calls

Chargeable time begins when the connection is established between a station associated with the IntraLATA 800 telephone number and the calling station, and ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.

f. Monthly Rates

A monthly rate of \$15.00 applies to each IntraLATA 800 Service telephone number.

g. Service Establishment (Non-Recurring) Charges

A one-time charge of \$35.00 applies to establish IntraLATA 800 Service, per 800 number.

h. Usage Charge

The hourly rates apply to the usage per 800 telephone number, calculated as described in D.2.c. preceding.

Hours of Use	Rate Per Hour
0-20Hours	\$11.50
Over 20 Hours	9.80
